

The Right Time for an Informed Investor

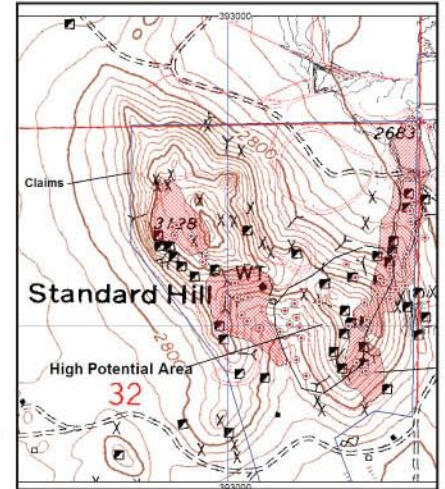

CALIFORNIA GOLD & SILVER MINE

Standard Hills Mine

Standard Hill Mines is a group of 5 patented and 13 unpatented mining claims and is located about **3 miles South of Mojave** and about **65 miles North of Los Angeles CA**.

Most of the claims were filed around 1902. The Exposed Treasure goes down under ground 9 levels approximately 900 feet and has about 10,000 feet of horizontal workings. In addition, the Yellow Rover has 4 levels and about 3,000 feet of horizontal workings. The Desert Queen has about the same amount of working as the Yellow Rover. During this time (1902 to 1942) approximately \$3,500,000 of GOLD was extracted. Mind you that gold was capped at \$16.00 and then \$32.00.

During the late 1980's through 1991 Standard Hill Mines was leased out to Shell Mining CO. / Billiton Minerals. They opened up 4 pits and processed this ore with cyanide heap leach. They extracted more than 77,500 oz. of gold and 258,000 oz. of silver. During this time Shell drilled over 300 test holes between 300' to 450' deep, with assays every 5 feet. With the current drill hole data, it is estimated the reserves to be approximately 100,000 oz. of gold and over 200,000 oz. of silver.

The following are points of interest concerning this exciting investment opportunity:

- ◆ Most of the claims were filed around 1902
- ◆ Exposed Treasure goes down under ground 9 levels approximately 900 feet and has about 10,000 feet of horizontal workings
- ◆ Current drill hole data estimates the reserves to be 100,000 oz. of Gold, that's \$142,000,000 (142 million) and over 200,000 oz. of Silver, that's \$6,000,000 (6 million)
 - ◆ One drill hole sample ran 4.6 oz. of GOLD per ton
 - ◆ One drill hole sample ran 28.5 oz. of SILVER per ton
- ◆ Currently permitted for chemical extraction and if modified could be in production in minimal amount of time.
- ◆ One of three mines in California that has a chemical extraction permit.
- ◆ Mine currently leased to Granit Construction for aggregate use.

Price \$7,750,000 cash - Will consider all reasonable offers

If the price of Gold passes \$1,900 an ounce, the sales price will increase to \$8,500,000 cash.

For the opportunity to discuss the mines in further detail, please contact Phil. Property is shown by appointment only.
